WP Integration Setup

This wordpress plugin will allow you to select Aztec items for sale on your woocommerce shop, keep stock and pricing information up to date, and handle creating an order submission when a customer purchases an aztec item.

Step 1: Setup the integration using the integration portal

Once you hit save, your api token will be generated (Note: this will be regenerated each time that you save)
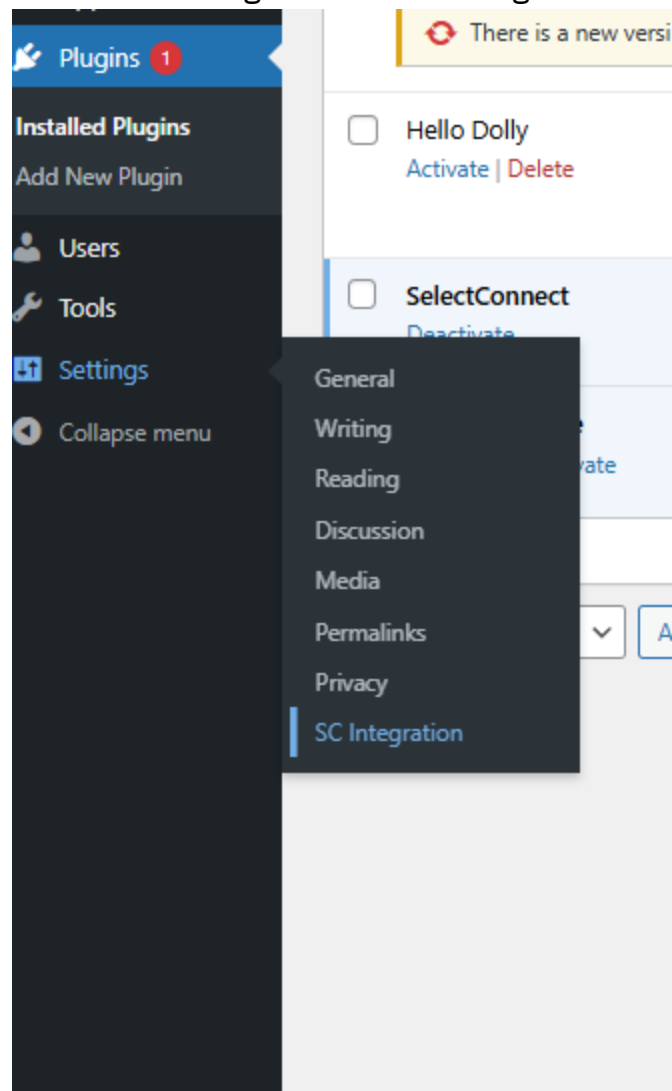

(Your integration settings have been saved. Here is your api token: e9139b9d-1f68-4e8d-b8c3-783d0b831cf1)

Step 2: Upload & Activate the plugin

- You must have woocommerce installed and activated before the selectconnect wordpress integration will work

Find the Plugin in 'Settings'

Enter your API Token and hit 'Save'

Integration Settings

Configure your WooCommerce shop integration. Product selection is managed through the Integration Portal.

API Configuration

Enter your API credentials to connect with your wholesale distributor account.

API ID

Your API ID from your integration portal

Save API Settings

Step 3: Run Full Sync

Once the full sync has been ran once manually, it will run a full sync once daily and a stock/pricing sync every 15 minutes

After the sync has finished, the resulting products are ready for sale in woocommerce

When an order is processed, any items from aztec are processed as a
new order to aztec imports. In the example below, 'MyItem', is not
from the Aztec item catalog, so the resulting order to AztecImports
only contains 3 items even though the original order has 4 items:
```
